- A cheque/money order or credit card authorization in the amount specified above (Cheque should be payable to CATAIR)
- A current resume of your training, experience, qualifications plus copies of ALL relevant certificates obtained
- **REGULAR MEMBER APPLICANTS:** Proof of completion of at least a technical accident investigation course that is recognized by the Board, (minimum Level III) or proof of completion of engineering or engineering technology degree.
- **REGULAR MEMBER APPLICANTS:** A letter of sponsorship from a current CATAIR member in good standing. If no sponsor is available, kindly submit technical report(s) for review or proof of ACTAR accreditation.

Send completed application to: Terry Lolacher
8426 94 Ave
Fort Saskatchewan AB T8L 2R6
Canada

CATAIR was founded in 1984 to meet the growing demand for a professional organization that subscribes to a code of professional conduct. As such, **CATAIR's** purposes are:

- To organize into one body specialists in the field of technical accident investigation and reconstruction
- To support and maintain a high standard of ethics, integrity, credibility and honor in the field of technical accident investigation and reconstruction
- To promote traffic safety across Canada
- To research and communicate matters of mutual interest
- To foster a spirit of camaraderie among the Association members

CATAIR membership is open to individuals involved in all aspects of road safety. Presently our membership is comprised of active and retired police officers, engineers, engineering technologists and private consultants.

CATAIR offers two types of membership:

- The **REGULAR** member is an individual who has successfully completed a course in Traffic Accident Analysis or Reconstruction from an approved institution or has other qualifications, which normally qualify them as an expert in civil and/or criminal proceedings in accident reconstruction.
- The **ASSOCIATE** member is an individual such as, but not limited to, medical doctors, traffic engineers, human factor analysts, insurance adjusters, fleet safety supervisor and attorneys who have either a primary or secondary interest in traffic accidents but is not qualified to reconstruct accidents.

CATAIR holds an annual meeting, which includes technical presentations, field-testing, product exhibition, election of officers and a business meeting. Membership affiliates you with our national organization and entitles you to discounts while attending our Annual General Meeting and seminars.

CATAIR also sponsors courses in the technical collision investigation and reconstruction field, and often at discounted rates.

Your application, submitted with the processing fee, will be reviewed by the Membership Committee to ascertain whether your qualifications meet **CATAIR** standards. Normal processing time for applications is approximately 6 weeks. Membership expires at the end of the calendar year.
